FLIP IT! ONLINE COURSE

A conference was organized for launching the online course on 19 February 2018, where one of the topics presented was the e-learning portal. Course participants were assisted by mentors during March and April in mastering the learning material of the 3-module course. The grading of assignments at the end of each module was also performed by the mentors.

Within the course participants planned their flipped lesson, collected or prepared digital learning material for that lesson and also delivered the lesson for their own students.

Participants created their reports about their pilot flipped lesson, the best of these experiments were presented by the teachers themselves at the closing conference in Budapest, on 12 June, 2018.

Presentations of the Czech and Spanish partners and the mentors of the course also took place at this event.

Altogether 76 Hungarian teachers received the certificate that proves their successful completion of the accredited course.

The course was highly successful, in the evaluation participants praised the technical background, the video tutorials, the work of the mentors as well as the learning material that they considered to be practically useful.

PROJECT INFORMATION

Experiments are being run all over the world about how best to introduce new, innovative teaching, learning methods that meet the requirements of the 21st century. One of these methods is the ‘Flipped Classroom’.

The aim of the project is to integrate the “flipped classroom” method into the pedagogical practice of the VET schools and training centers in the partner countries. The long-term aim of the project is to improve the quality of the vocational education and to engage a movement towards the work-based, collaborative and problem-oriented learning/teaching by utilizing the pedagogical potential of ICT tools.

PROJECT OBJECTIVES

- Review the theoretical studies and pedagogical experiences on Flipped Classroom method
- Carry out a needs-analysis by involving the teachers of the partner countries
- Elaborate the “Flipped Classroom Methodology” (textbook, curricula, online training for VET teachers)
- Pilot online course in the partner countries by involving VET teachers
- Validate the results in VET schools by involving students

TARGET GROUPS

Primary target group: VET teachers

Secondary target group: VET students

PROJECT BASICS

Acronym: Flip-IT!

Grant agreement number: 2015-1-HU01-KA202-013555

Title: Flip-IT! - Flipped Classroom in the European Vocational Education

Duration: 1 September 2015 – 31 August 2018

Program: ERASMUS+

Participating countries: Hungary, Ireland, Spain, United Kingdom, Czech Republic

Website: flip-it.hu
